REENFORCED WITH HUGE ARMY, RUSSIANS TURN BATTLE TIDE THEIR WAY

PETROGRAD, FEB. 3.—FIERCE FIGHTING CONTINUES WEST OF WARSAW AND THE TIDE OF VICTORY IS NOW FLOWING TOWARD THE RUSSIANS, WHO HAVE BEEN STRONGLY RE-ENFORCED WITH TROOPS ESTIMATED AT A MILLION MEN. TRENCHES CAPTURED BY THE GERMANS DURING THE EARLIER FIGHTING HAVE BEEN RE-TAKEN BY THE RUSSIANS.

ANOTHER INVASION OF HUNGARY IS IN FULL SWING, AND A LARGE FORCE OF CAVALRY IS APPROACHING BUDAPEST. ADVANCING COSSACKS HAVE PRACTICALLY SEPARATED THE AUSTRO-GERMAN FORCES IN BUKOWINA FROM THOSE IN GALICIA.

THE RUSSIAN ARMY IN NORTHERN POLAND HAS SCORED SUCCESS IN THE REGION OF MLAWA. THE RUSSIAN DRIVE AGAINST THORN HAS BEEN CHECKED BY GREAT MASSES OF GERMANS, WHO WERE RUSHED TO THE LOWER VISTULA.

WARSAW, FEB. 3.—THE RUSSIAN DRIVE AGAINST THORN HAS BEEN RESUMED. AFTER TERRIFIC FIGHTING ALONG THE LOWER VISTULA RIVER AND NORTH OF THE RIVER, THE GERMANS RETREATED TO LIPNO, 26 MILES FROM THORN. COSSACKS CUT AN ENTIRE SQUADRON OF THE GERMAN SEVENTH CUIRASSIERS TO PIECES.

FLORIDA TEACHER SLAIN BY PATRON.

VALDOSTA, Ga., Feb. 3.—William Yates, aged 20, a teacher in the public schools of Hamilton county, Florida, was shot and killed by Claud Holtzendorf, Tuesday afternoon. The slayer was shot through the mouth. Yates was administered a whipping, at school, to Holtzendorf's son.

NEARLY QUARTER MILLION WOMEN REGISTERED.

CHICAGO, Feb. 3.—With additional women on the registration books, Chicago takes first rank as a suffrage city. Of 690,720 voters now registered, 66,688 are men and 223,403 are women.

ESPLANADE WILL BE ILLUMINATED AGAIN SATURDAY EVENING

HOLTZ ANNOUNCES THAT EQUIPMENT NOW BEING INSTALLED WILL ENABLE HIS COMPANY TO SUPPLY CURRENT

Unless something unforeseen happens to prevent it—and there is not much little cloud in sight—the Esplanade Burgoyne will be lighted Saturday evening. Not only that, but the charming promenade presented to the city by the generous and gentlemanly who honors the name of Esplanade Burgoyne will be effulgently lighted in soft electric rays regularly every evening thereafter—that is, after Saturday.

Tuesday afternoon, Michael Sholtz, a representative of the Esplanade Burgoyne company, announced that the company's plan to supply electric current for the esplanade had been installed this week. The work, including the making of wire connections, will be finished not later than Saturday, and the last serious work on the illumination of the "White Way" extending along the Halliwell river front from Orange avenue to Magnolia will have been removed.

HOTEL PROPERTY ON NORTH BEACH ST. CHANGES HANDS

Geo. S. Miller, of Bennett, N. Y., has purchased, through J. C. Butler, the Riverside hotel property on North Beach street, owned by A. C. Harper. The property includes a 14-room house on a lot fronting 50 feet on Beach street and 300 feet in depth, extending back to Daytona street.

Mr. Miller was in Daytona for a short time two months ago and was so prepossessed with the city that he returned Monday, and Tuesday made the purchase mentioned. He left Tuesday afternoon to join Mrs. Miller in Orlando and they will come to Daytona next week and open up the Riverside for the season. Mr. and Mrs. Miller have spent several winters in Orlando.

EDITION NOW IN PROCESS OF PREPARATION PROMISES GREATLY BENEFICIAL RESULTS FOR DAYTONA SECTION.

The Special Illustrated Edition of the Gazette-News, which is now in process of preparation, promises to be one of the most satisfactory publications of its kind ever issued in this section. The interest taken in the proposition by the progressive business element of Daytona and its surrounding communities is gratifying in the extreme, and, with the support of the wide-awake citizens of this vicinity, the success of the edition will be assured.

The Special Illustrated Edition will be issued while the tourist season is still in full swing, so that visitors stopping in this section may send copies to their friends in other parts of the country. In this way a more comprehensive and far more satisfactory circulation will be secured than through any other channel.

Containing many illustrations, together with an accurate description of conditions as they exist in this city and vicinity at present, with the outlook in the way of development, the edition will portray vividly the natural and acquired advantages of Daytona and its environs. WICK, AFIRE WITH GREED, CAUSED HIS PAL TO BOYLE OVER

YOUNG MEN WHO TOOK MONEY NOT THEIRS, AT THE POINT. SETTIA HOTEL, SENT TO JAIL AT DELAND.

Johnny Wick and Joseph Boyle, the two young men who were arrested Monday, for taking about \$40 of H. O. Parker's money, were carried before Justice John W. Williams, of Seabreeze, late Tuesday afternoon, for commitment hearing. Wick was at first inclined to affect innocence, but when he was taken out of the room his partner, Boyle, confessed that they got the money. Boyle said that he knew nothing about the theft until Wick told him about it afterward, but admitted that he was implicated to the extent of accepting part of the cash and agreeing to slip away from town.

On learning that Boyle had "squealed," Wick weakened and admitted the truth of his pal's statements.

The men were committed to the county criminal court, on a grand larceny charge. Unable to give the \$250 bonds required, the boys were remanded to jail, and an officer from DeLand and carried them over to the county seat today.

Wick and Boyle came here from St. Augustine, about two months ago.

"Dig Yourself In"

Written Especially for the Daily News

By DR. CHARLES FREDERIC GOSS

Author "Redemption of David Corson"

When the commanders of those European armies see that the last possible step has been taken by their soldiers in a "charge," they arrest their progress by the command to "DIG THEMSELVES IN."

Inflicting their broad bayonets, the tired heroes begin a hurried excavation. It takes but a moment or two to throw up earth enough to protect themselves from rifle balls; but deeper and deeper they go like human moles, until finally they are able to stand upright. These individual excavations are then connected into trenches, and they, in turn, are over-roofed with logs or iron rails. Loop-holes are left for firing through and barbed wire fences, charged with deadly electric currents, are strung before this novel fortification.

Well, there they are—as "snug as bugs in rugs," and getting them out is the hardest task that armies have ever had to perform in the whole long history of warfare. What would those of Tamerlane or Ghengis Khan; of Alexander or Caesar; of Cromwell or Napoleon have done with a situation like that? Opening oysters, digging turtles out of shells, or smoking bears from their caves, is simple business in comparison with running those soldiers (creeping like ants through those subterranean chambers) out into the open fields.

"Dig yourselves in!"
Sooner or later, that phrase must acquire an ethical as well as military significance. For, at times, every good soldier of the kingdom of heaven finds himself in situations of such deadly peril, that to take another step would mean destruction. He must therefore hunt for cover! Dig himself in and out of sight of the foe! I have watched the process a thousand times and so have you. A thousand times we have had to do it, for ourselves. Take chronic invalids, for example. Their doctors confess themselves baffled. Drugs have failed. Pain is charging down upon them. Or, some easily besetting sin attacks a man. His foe is too strong to be met in the open. The time has come to hide; to "dig themselves in;" to make the Lord their shield and buckler; to hide under the shadow of the Almighty wing. The art of war is not exclusively offensive. Every army and every soldier is driven at times to seek for safety in flight or hiding.

At the beginning of this terrible world-conflict, the soldiers who were armed with spades contemptuously threw them away; but now their guns go first! We need "a shelter in a time of storm!" To know how to "dig ourselves in" is a sublime accomplishment.

CHAMBER COMMERCE OF U. S. IN SESSION

BUSINESS MEN FROM ALL OVER THE NATION IN ATTENDANCE AT CONVENTION IN WASHINGTON.

WASHINGTON, Feb. 2.—Captains of industry from all parts of the United States are gathered in Washington to attend the four-day convention of the chamber of commerce of the United States of America, which opened here today.

The National Council of the Chamber, which is a federation of more than 600 chambers of commerce, boards of trade, commercial clubs and various trade organizations, met today to discuss the general business affairs of the nation. The effect of the European war on American foreign trade and upon home industries was discussed by the business men and a program of the national chamber's activities for the ensuing year was submitted.

Harvey S. Chase of Boston, addressed the council on the national budget issue.

John H. Fahey, president of the chamber, will deliver his annual address tomorrow at the morning session, while Secretary of State Bryan will address the council on American investments abroad at the afternoon session. The federal reserve act and its relation to trade ex-

the bureau of corporations which shortly is to be merged into the new federal trade commission will tell the council about the new trade body at the session on February 4. Harry A. Wheeler, of Chicago, will discuss successful methods of commercial organization. Mr. Wheeler is a former president of the chamber.

Secretary of Commerce William C. Redfield and Governor Charles S. Hamlin of the federal reserve board, are to deliver addresses at the annual banquet of the council on the night of February 4.

Recent work of the bureau of foreign and domestic commerce of the department of commerce is the subject to be discussed by Dr. E. E. Pratt, chief of the bureau, at the session February 5. E. A. Filens, vice-president of the international congress of chambers of commerce, will speak on trade expansion and the European war the same day, while later the national council will elect officers.

Born Optimist.

A friend's little girl was out walking with her grandmother. Said grandma: "Oh, Peggy, my feet are so tired!" and Peggy answered: "Yes, grandma, so are mine awfully tired. But I try to bear it bravely, thinking what a nice ride my stomach is having."

ORMOND

ORMOND, Feb. 3.—Mr. and Mrs. James A. Kay, of Pittsburgh, Pa., are spending a week at Bretton Inn, and have engaged rooms for the season of 1915.

Dr. Deering Roberts and daughter, of Nashville, Tenn., arrived in Ormond on Monday, and while here will be the guests of Dr. Deering's niece, Mrs. Macon Thornton, on the peninsula.

The new tennis courts at Bretton Inn are completed and in use, contributing much towards the entertainment of the guests.

A very disastrous fire occurred on Saturday afternoon shortly after 3:00 o'clock, the residence of Ross Adams on Lincoln street burning to the ground. The origin of the fire is unknown. No one was at home when the fire broke out, Mrs. Adams and one of the daughters having gone across the way to a neighbor's, when, after sitting a few moments, the smoke and flames were discovered coming from the house. The alarm was given and responded to promptly, but it was impossible to save anything. Mrs. Adams' house on the right of the Adams home, and a barn or livery stable belonging to D. W. Waldron on the left, caught on fire. The stable was badly burned on one side, and it was only through the most strenuous efforts on the part of those fighting the flames that the fire did not spread to a number of houses in the immediate vicinity. Daytona responded promptly to Ormond's telephone call by sending two auto loads of men to help out. Manager Trudeau of Hotel Ormond greatly assisted by sending a dozen men with a foreman in charge, also sending a large number of fire extinguishers, as did also Mr. A. M. Lindsay, these playing a part in the saving of the adjacent buildings. Special mention

should be made of Miss Dorothy Robbins, who drove her auto over the bridge to the hotel and again to Mr. Lindsay's, bringing each time a load of fire extinguishers, making the rapid trips and handling her car with a coolness commended by all who saw her.

The Adams family was taken care of that night and over Sunday at the homes of Frederick Carnell and other neighbors, and are now in a cottage offered by William Barr, where they will remain temporarily, or until their home can be erected, which, it is thought, will be within a very short time. The work on this will be most generously donated by carpenters, painters, masons, etc., while the neighbors and friends are all responding most liberally to the call for subscriptions, etc. Gail Borden, George H. Sage and James Carnell have the matter of the subscriptions and funds collected in charge. The guests at Bretton Inn made up a contribution among themselves, giving about \$115.00 towards the fund for relief.

Mr. Adams and his family are very grateful for all that has been done and is being done for them because of this unlooked-for calamity, and wish, through the medium of the press, to thank everybody for their assistance. The neighbors in the immediate vicinity also wish to express their appreciation for the efforts made in saving their buildings and homes.

A parent-teachers' association has recently been organized in our village school, with the following officers: President, Mrs. D. W. Waldron; vice-president, H. L. Johns; secretary, Miss Lillian Sealoom. It is hoped that through this organization a closer relation between parents and teachers may be effected. There are no arduous duties for any, and no dues; so it is hoped that every parent will feel free to become affiliated with the association and thus manifest interest in the work of the school. One meeting will be held each month. The next meeting will be held on Friday

afternoon, February 26th, when Miss Margaret Howe will give a talk on Japan, which both pupils and parents are urged to attend. This talk will be very interesting as well as instructive, as Miss Howe brings her own impressions, which were gathered while on a trip through Japan.

The "poverty social," given under the auspices of the Village Improvement association Thursday evening at the library rooms, was as enjoyable an entertainment as the club has had for some time. The kitchen orchestra, conducted by Miss Helen Sawyer, created a great deal of merriment. The "making of an apron" contest, participated in by several gentlemen, whose absorption in the hemming, gathering, etc., was something to be remembered, as was the wood-sawing contest, as exhibited by several of Ormond's society young ladies, who showed unusual skill and deftness in this line, as well as demonstrating that they were clever in something besides "bridge," all added much to the novel entertainment. Miss Margaret Sage and Miss Ethel Francis proved the lucky contestants in the sawing exhibition and Ed. Russell was the fortunate prize winner in the sewing contest. This was followed by a guessing game, Miss Dorothy Danb taking the ladies' and J. G. Danb the gentlemen's prizes. The box lunches were auctioned off by J. A. Reilly, who proved quite equal to the honor thrust upon him, the gentlemen bidding up generously and afterwards sharing the delicious contents of the boxes with the ladies whose cards were enclosed. The committee in charge was Miss Helen Sawyer, Mrs. Gay Whitman and Miss Anna Owens. The social netted the V. I. A. \$19.

Dr. Thomas Lighthody, of Mandarin, Florida, is in Ormond again for the season.

BROOKE JAILED AT FORT LAUDERDALE

CASHED BAD CHECKS HERE AND AT DELAND SEVERAL MONTHS AGO—LOCATED BY CHIEF MILTON'S WIFE.

Chief of Police T. O. Milton received a telegram, Tuesday evening, from Fort Lauderdale, stating that Everett Brooke, wanted in this county for forgery, had been arrested and was being held in that city. An officer from Deland will leave for Fort Lauderdale, Wednesday afternoon, and bring the prisoner back.

The crimes for which Brooke will have to answer were committed last fall. On or about the last day of October, it is alleged, he uttered a check for \$18.60 on a Daytona bank, signing Henry Alexander's name to it. He then went to the store of M. M. Edwards, a colored merchant in Midway, purchased a small bill of goods, and presented the check in payment, receiving nearly \$18 in cash, in addition to the goods. The bank refused to honor the check, for the reason that the signature was irregular. Brooke left here within a few hours after cashing the Alexander check. He turned up, a little later, at Deland, where he succeeded in inducing G. A. Dreka & Co. to give him \$35 for a check bearing the forged signature, it is claimed, of a Spring Garden party named Clifton.

Brooke then disappeared and was not heard from again until a few days ago, when Mrs. T. O. Milton, who has been visiting at Miami, did a little clever detective work on her own initiative and discovered that the fugitive was stopping with relatives near Fort Lauderdale.

Dr. and Mrs. Wm. D. Morgan, of Hartford, Conn., arrived Wednesday morning with their charming six-months' old daughter and nurse and are guests at the Clarendon hotel. They had been at Miami and in Cuba before coming to Daytona, but will probably be here for the remainder of the season. Dr. and Mrs. Morgan have many friends in this city and vicinity to welcome their arrival. Mrs. Morgan is a daughter of Mr. and Mrs. Theo. Sengstak, of Washington, D. C., who have a winter home at Daytona Beach.

E. M. Cleveland, well-known here, both as a real estate man and singer, has arrived from Asbury Park, N. J., to be here for the remainder of the season, and as usual, is a guest at the Prince George hotel. Mr. Cleveland expects to be joined here later by his daughter.

The steamer Geneva, of the Canal Packet line, arrived this morning from Jacksonville with a full cargo for this city and vicinity.

Her Husband.

"I asked my husband for some pin money this morning." "What did he say?" "He asked me how much pins were a paper."

Boom in Calcium Carbide.

The world's output of calcium carbide in 1913 exceeded 350,000 metric tons, says the Engineering and Mining Journal. The autogenous welding of metals requires a large quantity, about 22,000 tons being consumed for that purpose in Germany, as compared with 28,000 tons for illuminating. The price for calcium carbide in Europe was maintained at about \$11 1/2 per ton. The production and price are regulated by a syndicate, which at the end of 1913 was renewed for another term.

Justice for Little Men.

"These people say they were not a trust," said George K. Service, the noted Denver lawyer, apropos of a convicted corporation. "Well, trust or no, the outside dealer got about as much justice at their hands as the little man got in the theater." "A big, fat man at the theater sat on his overcoat. Thus the little man behind him could not see at all." "I can't see anything, mister," said the little man plaintively, touching the big man on the shoulder. "Can't see anything, hey?" "No, sir; I can't see a thing." "Well, then, I'll fix you up. Just keep your eye on me and laugh when I do."

DAYTONA, FLORIDA

SCHOOLS IN SPECIAL DISTRICTS ORDERED RUN EIGHT MONTHS

ENTIRE COUNTY BOARD OF IN-
STRUCTION TO VISIT 27 PRIN-
CIPAL SCHOOLS OF VOLUSIA
COUNTY.

The board of public instruction met at Deland Monday evening.

Commissioner Crouch reported completion of repairs to Ponce Park school house. He also reported construction of cement sidewalks around Port Orange school property in progress. The proposition made by the trustees of this school to put down cement walks from street to building and around the building was deferred. Commissioner Crouch was instructed to have bicycle shed built on the school grounds.

It was ordered that the entire board accompany the superintendent to visit the following schools: Seville, Bradlock, McGlenn, Emporia, Barber-

ville, Clifton, Center school, DeLeon Springs, Osteen, Enterprise, Orange City, Lake Helen, Deland, Glenwood, Ormond, Holly Hill, Kingston, Seabreeze, Daytona (both white and colored), Blake, Port Orange, New Smyrna, Glenwood, Hawks Park, Oak Hill, Volusia and New Creek.

The superintendent was instructed to arrange a definite itinerary to commence March 8th, and to post signs at each school and the postoffice for each district, stating the date and hour the board will be there, and inviting any and all who would like to consult the board relative to school matters to be there. The real purpose of this tour is to acquaint the school board with local conditions existing in each school.

Commissioner Crouch was instructed to purchase and have installed, a two-tank four toilet sewerage system for the Kingston school. M. L. Crews was instructed to erect rooms for the toilets, and to finish the fourth room in the school building. The work to be done in this room will consist principally of wallscote, plastering, casing windows, etc. The work is to be done under the supervision of Commissioner Crouch. The superintendent was instructed to em-

ploy another teacher for this school, to commence work immediately upon completion of room. Upon petition it was ordered that this school be given an eight-months' term.

The board purchased from C. E. Rowlander lots 4, 5 and 6, of block F, Highland Park, Rowlander's 6th subdivision, of Kingston, for the sum of \$300.00. A warrant for \$25.00 was drawn, the balance due to be paid on or before 60 days. Mr. Rowlander agreed to make deed immediately. These lots are 32x50 feet respectively, and join the school property. Due to the fact that the school is crowded for room it was deemed necessary that this property be acquired.

It was ordered that all special tax district schools be run for eight months, where the district has a sufficient balance to pay the teachers, provided the work of the teachers in the respective schools is satisfactory.

The board appropriated \$10 to be added to the \$20 appropriated by the special tax districts, embracing Deland, Daytona, Seabreeze and New Smyrna, all of which is to be awarded in prizes in the spelling contest to be held in Daytona, February 6th.

It was ordered that where a majority of the teachers in any school in the county wish to attend the educational exhibit at Orlando, Friday, February 12th, that the school may be closed for that day, and Saturday following taught to make up the day. Teachers who attend must bear their own expenses. Any individual teachers desiring to attend this exhibit, may, if satisfactory to the principal, provide a substitute for the day, such substitute to be paid by the regular teacher, the board to pay the regular teacher for full time.

It was again ordered that no school building in the county shall be used for any purpose whatsoever, except school purpose and other meetings pertaining to school work. The superintendent was instructed to so advise all trustees and supervisors, and to rigidly enforce the order.

OLD GLASS AND PEWTER SALE IN NEW YORK

NEW YORK, Feb. 3.—Rare old pieces of American glass and English porcelains and pewter are in a collection from Massachusetts which sold in the Anderson Art Galleries, Madison avenue and Fortieth street at auction today.

One of the rarities is an English glass ale jug of sea blue color, and another is a quaint English glass fly trap. There are many Staffordshire figures, including a mottled gray horse. A Rockingham lion is an unusual piece. A Staffordshire plate in blue and white gives a view of the State House in Boston. The pewter includes two old English meat dishes.

Two unusual objects are a woman's writing stand, inlaid with mother of pearl, and an English brass smoking box and lacquer writing stand, with quaint compartments, inlaid with mother of pearl. Another oddity is a carved wood cabinet with a miniature set of Shakespeare in forty volumes, from Stratford on Avon. The old American pieces include a "hound-handle" pitcher made by Greatbach, of New Jersey.

The smallest golf course in Great Britain is probably that on May Island, at the mouth of the Firth of Forth, the sole occupants of which are the keepers of the lighthouse. The island is a mile long and two and a half furlongs broad.

Saved Northwest to United States.

The death of Francis Xavier Matthieu in Aurora, Ore., at the age of ninety-six years, reveals a maker of history. It is claimed that the vote of this French pioneer preserved a great slice of the northwest to the United States. The old Oregon territory, including Oregon, Washington, Idaho and a part of Wyoming, once trembled in the balance. May 3, 1843, settlers assembled at Champoeg, Ore., to decide whether they should be under British rule or the rule of the United States. Two lines formed, one for the British and one for the United States, and when the count was made there were fifty-one on each side. For many minutes the men of the two lines glared at one another and not a word was spoken. Suddenly, to the surprise of all, Matthieu, a Frenchman, born and reared under the British flag, stepped out of the British line and walked slowly to the American line and Oregon was saved to this country.—Springfield Republican.

USE OF SCRAPER HAS GREATLY IMPROVED STREETS

The scraper has been at work for the past week rounding up the Seabreeze streets, which were full of holes, occasioned by the frequent rains. The street committee came in its share of criticism for tearing up the two main parallel thoroughfares, North Halifax avenue and North Peninsula drive at the same time, but the last three days of sunshine have left the streets in passable condition, and the fill between Ocean boulevard and Oakridge boulevard on the two streets is a decided improvement over its former conditions. The committee has been able to secure the prompt delivery of dry shell which was ordered.

ENJOYED MOTOR TRIP DOWN THE EAST COAST

W. A. Nickel and W. R. Harvey and wives returned Saturday night from Palm Beach and Miami. They gysied through for pure enjoyment of it and returned in fine spirits. Found the road quite passable, although there were muddy places to be avoided all along. They report that there are about as many people in Palm Beach and Miami in proportion to size as in Daytona and vicinity, and that the rainfall is about the same.

DISPLAY OF SOUVENIRS
AT HOTEL NEWS STAND

The Clarendon news stand, situated in the extreme southwest corner of the hotel lobby, is this year carrying a select line of souvenirs of various kinds, together with sterling silver novelties, in addition to daily newspapers, magazines and periodicals. Patrons of the hotel are thus enabled to purchase just what they desire in these lines without going outside the building. Mr. and Mrs. Tainter, who are this year in charge of the department, have had a long experience in the handling of such articles, and patrons are assured of getting value received and courteous treatment for every dollar spent with them.

Introducing New Wood.

Five million gallons of food oil (also known as tung oil), made from the seeds of the wood oil tree, was imported from China last year, and the product is said to have had a revolutionary effect on the varnish industry of the United States. It has largely taken the place of kauri gum and has made possible the manufacture of a quicker drying varnish, which is less liable to crack than that made from kauri gum, and has been found of special value in waterproof priming for cement. The tree is climatically adapted for cultivation in the Southern states, and the department of agriculture is distributing one-year-old specimens to bona fide experimenters.

ATTRACTIVE DINNER PARTY
AT LOTUS GRILL MONDAY

The Lotus grill at the Clarendon was the scene of a very attractive dinner party Monday night at which Mrs. Ira H. Miller and Miss Jessie Chamberlin presided as hostesses. Twelve covers were laid and the table arrangements lacked nothing in essentials or details. Mrs. Miller and Miss Chamberlin had as their guests, Mr. and Mrs. F. N. Conrad, Miss Elizabeth Stamm, Mr. and Mrs. L. M. Waite, Mr. and Mrs. T. E. Fitzgerald, Mr. and Mrs. W. M. Hankins and Mr. Dougall.

White Slave Subtleties.

W. B. Trites, the novelist, said at a dinner at the Hotel Negresco in Nice: "I see that certain squeamish New England minds are kicking now because our school teachers give sex instruction to the little children." Mr. Trites made a gesture of protest. "But what I want to know is," he demanded, "how the deuce, without sex instruction, can the little children understand our modern plays and films?"

Standing Up and Sitting Up.

Lady de Bathe (Mrs. Langtry) once made the piquant remark that she was "a foe to dissipation or anything of that kind, and I would urge every girl to say 'No' to the dissipated man who would marry her. The man a girl is obliged to stand up for before marriage, she will have to sit up for afterward."

Officials of the Buffalo, Rochester and Pittsburgh railroad have notified their employees that they expect them to be not only safe and reliable railroad men, but valuable citizens as well.

Mrs. M. J. Owens, of Toledo, Ohio, has taken up her reservations at Hotel Clarendon, where she expects to spend the balance of the season. Like many other guests of the big hotel by the sea, Mrs. Owens has brought along her touring car and chauffeur in anticipation of enjoying the unexcelled automobiling that the famous beach affords.

CLARENDON REGISTER

Arrivals at Hotel Clarendon for Monday, February 1st, include Fred M. Hoyt and Mrs. Hoyt, Jacksonville, Fla.; Mr. and Mrs. L. M. Ansley, Columbia, S. C.; W. A. Smoot, Jr., Alexandria, Va.; Mr. and Mrs. W. G. Whitcomb, Kansas City; Mrs. M. J. Owens, Toledo, Ohio; Mr. and Mrs. W. S. Bensten, Norfolk, Va.; Mr. and Mrs. E. W. Cobb, Boston, Mass.

Saw His Duty, and Did It.

Inspectors, acting on orders from the fire commissioner's office, are busy these days calling unexpectedly at places where the "no smoking" law is being disregarded, says the New York Tribune. A man in a factory, who was among those present on the list of "Fined \$10," said, regarding the activity: "The zeal with which these inspectors are doing their work reminds me of a fireman who put out a blaze all by himself. He was asked what he thought he was, 'a cop.' He replied: 'The fire was smoking under the very nose of a 'No Smoking' sign, so I arrested it.'"

King George of England has instituted a new order called "The Military Cross."

EXPECT LARGE CROWD AT
CLARENDON THIS WEEK

It is expected by the management of Hotel Clarendon that the present week will record a greater number of guests than ever before at so early a date. Reservations made last summer by parties in various cities throughout the United States and Canada have, in many instances within the past few days, been ordered in readiness, by wire. The extreme cold and disagreeable weather that has been experienced in the east and north during the past few days has had much to do with the hastening of many persons to the southland, who would otherwise have delayed coming until a later date.

Last night's arrivals included a number of prominent New Yorkers, many of whom expect to remain until the hotel closes in April.

BASEBALL'S GREATEST ENEMY IS GOLF.

By Frank G. Menke.

NEW YORK, Feb. 3.—Golf, if you care to know it, delivered the coffer of the big league magnates a harder blow than the general business depression, the European war or any of the other causes given for the falling off in the 1914 ball game attendance.

Golf is weaning the folks away from baseball. Ten years ago—even three years ago there weren't many golfers. The golf fever has ravaged the nation most in the last two years. The golf devotees numbered probably 5,000 or 10,000 fifteen years ago. The estimates of the golfers in the United States today range up to 1,000,000.

In other years when the American business man could tear himself away from his regular chores during the

summer time he would hustle out to the ball parks. Now the one-time fan who is a golfer skids past the ball park and hustles out to the golf links so as to get in 18 holes before sundown.

Watching a baseball game is good sport and it is thrilling, but a man who loves baseball and golf at the same time usually loves golf the more. Baseball, to a golfer, is only baseball, but golf is a Heaven sent pastime.

In every big league town at least 300 men who used to be regular attendants at the ball games now go golfing. The figure may go higher—probably may reach 1,000 a day. But let us take the lower figure of 300 a day. The organized major leaguers stage eight big league games a day. The loss of 300 fans at each game means a total loss of 2,400 a day.

Over a season's stretch of 154 games it will be seen that at the rate of 2,400 a day a total of nearly 400,000 fans are weaned away from baseball

games by golf. At 75 cents a head it means that the total money loss for a season is \$300,000.

Split among the 16 clubs in the organized majors, makes nearly \$20,000 a year lost to each club because golf has stolen away some of the fans.

Why We Do Not Burn Witches.

When the old Puritan got so excited over witches that he couldn't sleep and was willing to burn the old women to get rid of them, he showed that he did not have the steady nerve of the modern man, who sees things ten times more mysterious happening all the time and never gets at all excited. The reason why they did not have so many in the asylums at that time was because there were no asylums to which they could be sent.—Omaha World Herald.

TOMORROW IS IOWA DAY AT THE NAUTILUS

Thursday, February 4th, is Iowa day at the Nautilus.

There is already a strong Iowa association here, of which Miss Nellie I. Stevenson is the president. An organization meeting is therefore not necessary, but an "acquaintanceship meeting" will be held at 2:30 p. m., and all Iowans now in this vicinity are cordially invited to attend and get acquainted with the fellow residents of their state and to plan for future events.

Drawback to Holidays.

Holidays would be more enjoyable, as a rule, if they didn't make you so sorry for the people who are working themselves nearly to death trying to amuse you.

NEW YORKERS THANK SHOLTZ FOR COURTESY

The members of the New York State association were so well pleased by the courtesies extended them at their meeting at the Nautilus, Monday, that they wish to express their thanks to Mr. Sholtz.

The Nautilus is an ideal place for such a gathering, which can be made informal and enjoyable by the many attractions and different means of entertainment it affords.

It was further resolved that a notice of our appreciation be published in the Daytona papers.

LANDING DOCK AND WAREHOUSE
PRIVILEGES SECURED FROM
THE VOLUSIA COUNTY BRIDGE
CO.—SERVICE IN TWO MONTHS.

Capt. J. H. Howard was in Daytona from Monday until Tuesday evening, accompanied by P. Ketterer, who, for some time past has been engaged in the interest of the Howard line of boats for an extension of the service from St. Augustine to Daytona.

Captain Howard and Mr. Ketterer were here at this time to complete arrangements with the Volusia Bridge company for the construction of a landing stage and warehouse for the Howard line to be erected on the south side of the bridge, west of the draw, and a lease for the same was secured by Captain Howard while here.

Work on the landing dock and warehouse is to begin in the near future and Captain Howard says that within six weeks or two months freight service between Daytona and Jacksonville will be established with the William Howard, which is now in the hands of the Merrill-Stevens company at Jacksonville, being thoroughly overhauled and lengthened.

The boat will make two trips weekly from Jacksonville and the management hopes for a liberal patronage from the merchants of Daytona and vicinity.

The Howard line, which for some time has been operating freight boats between Jacksonville and St. Augustine, made strong efforts to secure docking and warehouse privileges in the vicinity of the city dock, but were unable to do so and had to look elsewhere for the desired landing, which was finally obtained at the concrete bridge.

About the Tango.

The tango mystery grows all the time. It is asserted upon every hand that nobody dances it. Still, the furor continues. Ask a dancing master if he teaches the tango and he will tell you no. He knows what it is—he has seen it done by experts—but he doesn't teach it. It is not a popular dance. There seems to be two tangos. One is the tango which comes to us from the Argentine Republic—a dance for experts—a slow, difficult thing that is not worth doing at all unless one can do it very well, indeed. The other tango is a new dance—the Castle walk, the hesitation waltz, or anything our fathers did not dance. This latter is the popular tango danced all over the country. It is the one at which the people who do not care about dancing continually thunder. It is not the tango at all. The tango is a myth, and they are knocking the daylight out of it every day.

**LICENSE FEE REFUNDED
BY ST. AUGUSTINE MAN**

Board of Trade Secretary Benford Deacon has just been notified by the secretary of the St. Augustine chamber of commerce that a complaint recently made by Mr. Hoffman, of this city, relative to his having been forced to pay an automobile license fee to St. Augustine officials, has been satisfactorily adjusted. Among other things in the St. Augustine secretary's rather lengthy letter was the following: "We are agreed that if Mr. Hoffman paid a tax of \$10.50 he was held up. Mr. Thrasher, who collected the money, insists that he collected but \$10.25. We regret that Mr. Hoffman should have been so careless as to pay out any money without having taken a receipt. Mr. Rogero, although he is in no sense compelled to do so, chose to forward to Mr. Hoffman his personal check for the amount. * * * I trust that you will do us the cour-

tesy to make it clear to Mr. Hoffman that it is only a matter of courtesy on Mr. Rogero's part to send him the refund. He prefers to do that rather than have any one dissatisfied."

Mr. Rogero is one of the Ancient City's officials, and Mr. Thrasher was an assistant. The latter is no longer employed in that capacity.

W. F. Knight, of Kingston, brought to this office Tuesday a fragment of wood fibre which was taken from a two-inch well being drilled on the house lot of his son, David Knight, in Highland Park. The well was being drilled by Henry Van Dorn, who, at a depth of 50 feet encountered what appears to have been an oak log, although when brought to the surface the wood was in a fibrous state. In a mountainous or hilly country it would not be so strange to find wood buried to this depth, but here at almost sea level it appears more unusual.

**BENEFIT BALL AT THE
NAUTILUS FEBRUARY 11**

Next Thursday, the 11th of February, another charity ball will be given at the Nautilus casino. A fee of fifty cents will be charged for the privilege of participating in the dancing and other festivities, and the net revenue thus derived will be donated to the Children's home, the Jacksonville institution to which Daytona and peninsula people have already made liberal contributions. The cause is a most worthy one, and it is expected that a large number of ladies and gentlemen will lend their aid by attending the ball.

Benford Deacon announces that tickets will be on sale, Thursday, at all the leading dry goods stores, drug stores, at the office of the board of trade, and by a number of young ladies of the city.

**COBURN'S MINSTRELS
PLEASED BIG HOUSE**
